

Eastern Ontario Hockey Academy Wolves

EOHA Wolves is part of the Sharpshooters Family which includes OSS, OSSJR, & ALMONTE JR Hockey Programs. Our EOHA Wolves will offer a U16, U18 and Junior Program and will combine Academics and Hockey within an environment that is both affordable and constructive to the ones involved. We offer a program that encourages the development of the mind in all aspects of daily learning on & off the ice. We consider education the cornerstone of civilization. We believe every player's options should be created according to his/her individual needs and situation.

Because we are situated in the Ottawa/Gatineau and surrounding area, we can offer English and French students the possibility of attending a school that caters to both languages. We have partnered with both public schools and Certified Virtual and Online courses to enable us to meet every child's particular needs and financial situation. We have also partnered with the NCPHL Educational advisory panel so that players can receive help dealing with Universities and all the steps involved in preparing them for their university careers.

In the past, our U16 & U18 teams have competed and played against some of the top programs in North America. Some examples of places our teams played in both the Canadian and American Showcases are Northwood, Everest, Blyth South, St.Micheals, Blyth Central, Cmi, Newbridge, Bishops College School, Kuper Academy, Frontier Hockey, Edouard Mon-Petit, Vert et Or Seminaire St.Joseph, Crescent College, St. Peter, Notre Dame, Gonzaga and Haliburton; just to name a few.

Our out of town players have the opportunity to billet with families that are currently in our program or for older players, we have apartment options. This enables us to offer players with a family oriented but independent setting to inspire a nurturing environment.
